Dear Association of Former Intelligence Officers (AFIO),

It is my pleasure to endorse Cadet Karissa Feltman for the Fall '09 AFIO Intelligence Scholarship. They come no better than this. She will be a great asset to the intelligence community as an active duty Air Force officer.

Never in my 22 years have I met a cadet with the tremendous potential that Cadet Feltman possesses. You are making a BIG mistake if you do not choose her. I look forward to you meeting this extraordinary individual.

Sincerely,

MEMORANDUM FOR ASSOCIATION FOR INTELLIGENCE OFFICERS

FROM: KARISSA FELTMAN
AFROTC Detachment 510/LRS Commander

SUBJECT: AFROTC Detachment 510 Intelligence Scholarship Intent Letter

1. The purpose of this memo is to cover my interest in becoming an intelligence officer in the United States Air Force.
2. When I joined AFROTC back in my freshman year, it was intelligence that truly sparked my interest as a career. The job holds a great fascination for me, as it suits my personality quite well. Being an intelligence officer is definitely my number one job choice in the Air Force due to the fact that the job requires a great deal of analytical and critical thinking, is needed at every base and for every facet of the Air Force community, and always changes; the job is always going to present something different day-to-day. I have actually gotten the opportunity to speak with several intelligence officers in the Air Force stationed in places ranging from New Mexico to Europe, and all of them find intelligence an extremely rewarding and exciting career. Every officer that I have spoken to in this AFSC is very glad they picked it and tell me that one of the most rewarding facets of their job is the fact that it never just stays the same, and this really excites me. I truly hope to one day be able to serve in the Air Force as an intelligence officer.
3. I have been interested in intelligence and related fields for a very long time. Before joining AFROTC, I also contemplated a number of different jobs in related fields before finally deciding that the Air Force definitely provided the best fit for me. One of my most intense interests is the study of China, Chinese culture and its people, and Chinese Mandarin. I have actually taken Chinese Mandarin lessons for over 3 years; I took 2 semesters at the University of New Mexico and am now continuing my study on my own. While considered a very difficult language, I find it extremely interesting and useful. I actually had the chance to visit China in the summer of 2008 for 2 weeks on a volunteer trip and had a good chance to practice my language abilities, as well as immerse myself in the culture. Due to the fact that my trip took place in a rather rural area where not many people spoke English, this trip gave me the opportunity to practice my Mandarin and get to better know the culture.
4. This past May, I was sponsored by Project GO to attend a conference in Washington, D.C. on U.S.-China Relations. Project GO is part of a government initiative that encourages ROTC cadets and midshipmen to learn target languages and become more educated on countries and cultures most important to the military. At this conference, I learned about the past relations between these 2 superpowers, but also the future interactions they may share. This is especially pertinent to the military, and the intelligence community, because of China's rising power many

different powerful aspects. I heard from a variety of lecturers on topics ranging from China-Taiwan relations and how the U.S. plays a part to U.S. defense interests in China.

5. This memo covered my interest in becoming an intelligence officer in the United States Air Force. If there are any questions, please feel free to contact me at (505) 550-8815 or karissaf@unm.edu

A handwritten signature in black ink, reading "Karissa M. Felton". The script is cursive and fluid, with the first name "Karissa" being more prominent than the middle initial "M." and the last name "Felton".
