MEMORANDUM FOR ASSOCIATION FOR INTELLIGENCE OFFICERS

FROM: MARY E. BOURGEOIS

AFROTC Detachment 510/Logistics Readiness Squadron Commander

SUBJECT: AFROTC Detachment 510 Intelligence Scholarship Intent Letter

1. The purpose of this memo is to document my background of the intelligence career field, my intent to become an intelligence officer in the United States Air Force, and how the dynamic nature of intelligence plays into gaining the advantage on the international scale and defeating insurgents.
2. My older brother has always been a role model to me. When I was only 11 years old, he enlisted in the Air Force. When he would come home for vacations and holidays, he always told many stories of his Air Force experiences. He showed me the bases he was stationed at and helped me understand what his maintenance career field entailed. I was mesmerized by everything he had done in his short time as an enlisted member. As a result, the desire to serve in the Air Force began to grow. I give credit to him for pointing me in the right direction to enlist in the Air Force. Naturally, he joined me at the recruiter's office and ensured I got the job that best suited my interests. He was a maintenance airman by trade, but knew my potential would be best enhanced in the intelligence career field. I was able to have a 1N0X1 AFSC reserved for me upon graduation of Basic Training. In June of 2006, I signed my enlistment papers and was shipped off to Basic Training. After I graduated, I began my tech school training at Goodfellow AFB, TX. I absolutely loved learning about different parts of the world that I never knew about. Although it was a rigorous six months, it was worth it, as I was able to perfect my public speaking and analytical skills.
3. My first base as an intelligence airman was Creech AFB, NV. I was able to work directly with the Remotely Piloted Vehicle (RPV) pilots and provide them with real-time intelligence support to help our ground forces fight insurgents. There was never a dull day in my squadron, as the Intelligence flight constantly provided vital information for the pilots to conduct Close Air Support (CAS) and Intelligence, Surveillance, and Reconnaissance (ISR) missions. As a young airman, I had large responsibilities that always got high visibility tasks from places such as the CAOC and MAJCOM levels. Needless to say, I quickly understood the demands and the intense nature of my job as an intelligence airman.
4. Even though I enjoyed working in that squadron for four years, I knew I needed to progress to something bigger. My brother went through the Air Force Academy, so of course he encouraged me to become an officer. I decided to put my application in for an AFROTC scholarship. I was

accepted less than six months later and in August of 2010, I separated from the Air Force and joined Detachment 510 at the University of New Mexico (UNM).

5. My prior enlisted experience really helped me understand the value of intelligence and why it is essential to today's military. I was able to see the broad picture of the Middle Eastern issues, the War in Afghanistan, and why the United States military does what it does. It is through intelligence information that high-value insurgents are found and captured, such as Osama Bin Laden. It is through intelligence that the United States has information superiority over any other country. In order for this information to be correctly processed and vetted to the proper sources, it requires intelligence airman to analyze and process this information. I fully understand the responsibility of such a job, especially that of a 14N. This is a critically manned career field at the moment and I would love nothing more than to, once again, be a part of the Intelligence Community. I thoroughly enjoyed my enlisted time as an intelligence troop, but I am looking forward to becoming an intelligence officer and getting a different perspective of intelligence as a 14N leader. I humbly ask you to consider me for this prestigious and honorable award.

6. If you have any questions or concerns, please do not hesitate to call me at 702-308-5665 or email me at mary1988@unm.edu.

1 University of New Mexico
Albuquerque, NM 87131-0001

Dear Association of Former Intelligence Officers (AFIO),

It is my pleasure to endorse Cadet Mary Bourgeois for the Spring 12 AFIO Intelligence Scholarship. They come no better than this. She will be a great asset to the intelligence community as an active duty Air Force officer.

Never in my 23 years have I met a cadet with the tremendous potential that Cadet Bourgeois possesses. You are making a BIG mistake if you do not choose her. I look forward to you meeting this extraordinary individual.

Sincerely,

A handwritten signature in black ink, appearing to read "RAUL V. GARCIA", is written over a horizontal line.

RAUL V. GARCIA, Lt Col, USAF
Commander
