Military Intelligence Scholarship Selection Board,

During high school I always thought about serving in intelligence in the Army. I was ready to enlist and become an imagery analyst, but I knew I wanted to be more vital to the army and the intelligence branch. This is when I chose to compete for the four-year scholarship for ROTC to earn my college degree and become a commissioned officer in order to branch Military Intelligence. I have always been interested in serving in this branch because I find it fascinating how sophisticated equipment is used to gather vital information for the battlefield, but the level of secrecy within the branch has always caught my interest.

As graduation approaches, I have been selected for branch detailing and will serve as an Armor Officer for three years and after those three years I will then serve as an Intelligence Officer. In May 2013 I will be graduating with a Bachelor of Arts in Criminology with a minor in Psychology from the University of New Mexico. With this degree I plan to use this to pursue a career in federal law enforcement, either with the DEA or with the FBI. I feel that serving as an Intelligence Officer will best suit me and will benefit my future career greatly.

I am extremely excited to be a part of this branch because of how diverse and extensive the branch is. I have always enjoyed being able to create plans and carry them out, but this branch now offers me the chance to collect vital information that can save the lives of soldiers on the battlefield. This concept of being able to provide commanders with information that saves lives and defeats the enemy excites me the most because this branch gives me the opportunity to do this vital occupation.

I am looking forward to graduation and the start of my army career because I have a unique opportunity to be a vital asset to this branch and the Army. I know that I possess the qualities that it takes to be an officer in the U.S. Army because I have always strived to push myself to the next level, whether that is through academics or through physical training. I never settle for less, and I would never expect any of my peers to do the same. I would be extremely honored to receive this award, and I will continue to work hard to ensure I am a vital asset for this branch.

Thank you for your time and consideration,

Sincerely,

A handwritten signature in black ink, appearing to read 'Vincent Michel', with a stylized flourish at the end.
